

Variability in Complex Systems

Sahand Hariri Akbari

Abstract—The abstract goes here.

Index Terms—Complex Systems, Variability, Infectious Diseases, Agent Based Modeling, Self Organized Criticality

1 INTRODUCTION

2 COMPLEX SYSTEMS

2.1 Emergent Behavior

2.2 Self-organized Criticality

2.3 Variability in Complex Systems

3 THE DISEASE PROPAGATION PROBLEM

3.1 Compartmental Models

3.2 Networks, CA's, and Grids

3.3 Stochastic Models

4 SELF-ORGANIZED CRITICALITY OF THE DISEASE PROPAGATION

5 AGENT BASED MODELING (ABM)

5.1 Computer Simulation

5.1.1 Object Oriented Programming

5.1.2 Optimization

5.1.3 Parallelization

6 RESULTS AND DISCUSSION

7 CONCLUSION

APPENDIX A

ACKNOWLEDGMENTS
